

NIKHIL BAMANE

DEVOPS ENGINEER | AWS, KUBERNETES, DOCKER, TERRAFORM, GIT & ANSIBLE EXPERT | JENKINS CI/CD & CLOUD SECURITY SPECIALIST | AGENTIC AI IN DEVOPS

Email: nikhilbamane06@gmail.com | Phone: +91 775 8899 605 | Location: Mumbai, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven **DevOps Engineer** with **5 years** of comprehensive experience in **cloud infrastructure, automation, CI/CD pipeline development**, and **site reliability engineering**. Proven expertise in **Infrastructure as Code (IaC)** using Terraform and Ansible, **container orchestration** with Kubernetes, and **cloud migration** projects on AWS, Azure and GCP. Demonstrated success in **reducing deployment time by 40%**, **improving system reliability to 99.9% uptime**, **optimizing cloud costs by 15-20%**, and **automating manual processes by 60%**. Strong focus on **DevSecOps** practices, **monitoring and observability**, and **high-availability architecture** for mission-critical applications handling **500K+ daily transactions**. Passionate about integrating **Agentic and Generative AI** into DevOps workflows to enable intelligent automation and predictive operations. Demonstrated ability to **accelerate Jenkins CI/CD pipelines by 30%** through optimization and parallelization.

CORE COMPETENCIES AND SKILLS

Cloud Platforms & Services: AWS (EC2, S3, VPC, IAM, RDS, Lambda, EKS, CloudFormation, CloudWatch, Route 53, ElastiCache, SNS, SQS), Microsoft Azure, Google Cloud Platform (GCP), Cloud Migration, Multi-Cloud Strategy

Container & Orchestration: Docker, Kubernetes, Helm, EKS, AKS, Containerization Strategies, Microservices Architecture, Pod Design, Service Mesh, Ingress Management, ConfigMaps & Secrets

Infrastructure as Code: Terraform, Ansible, CloudFormation, AWS CDK, Idempotent Configuration Management, State Management, Module Design, Remote Backends, Workspace Management

CI/CD & Automation: Jenkins, Git, GitHub, GitLab, Maven, Gradle, Pipeline as Code (Jenkinsfile, Groovy), SonarQube, Automated Workflows, Blue-Green Deployments, Canary Deployments, GitOps

Monitoring & Observability: Prometheus, Grafana, Zabbix, ELK Stack (Elasticsearch, Logstash, Kibana), CloudWatch, AWS X-Ray, Distributed Tracing, Metrics Collection, Log Aggregation, Alerting Strategies, Dashboards

Security & Compliance: Vulnerability Scanning, IAM Policies & Roles, DevSecOps, Fortinet NSE, CloudTrail, AWS KMS, Security Groups, NACLs, Compliance Automation, Security Hardening, OWASP, Security Scanning (Trivy, Clair)

Networking: VPC Design & Architecture, Subnets & Route Tables, NAT Gateways, VPN Connections, Load Balancing (ELB, ALB, NLB), DNS Management (Route 53), CloudFront CDN, Peering Connections, Transit Gateway

Databases: PostgreSQL, MySQL, MongoDB, Oracle, SQL Server, MariaDB, SQLite, RDS Aurora, Database Clustering, Replication, Backup & Restore Strategies

Scripting & Development: Python, Bash, Shell Scripting, Java, API Testing (Postman, Thunder), YAML, JSON, XML, REST APIs, Web Services

Tools & Platforms: Linux (Amazon Linux 2 / 2023, Ubuntu, CentOS, RHEL), Nginx, Apache Tomcat, Redis, Apache Kafka, JIRA, Agile / Scrum Methodologies, Confluence, Slack, Microsoft Teams

Methodologies: DevSecOps, GitOps, Infrastructure as Code (IaC), Continuous Integration/Delivery (CI/CD), Shift-Left Security, Observability, SRE Practices, Automation, Disaster Recovery, High Availability, Scalability, Agentic and Generative AI in DevOps

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer

NCDEX e Markets Ltd. (NeML), Mumbai, India

March 2024 - Present

- **Lead DevOps Engineer** managing **5 trading and auctions platforms including Commodity, Procurement, Emissions, Financing**, supporting **500K+ daily transactions** with **99.9% uptime** across multi-region AWS deployments
- **Architected and implemented 2 major cloud infrastructure modernization projects** (Enterprise CI/CD pipeline, GitLab migration) using Terraform IaC, reducing manual provisioning time by **60%** and eliminating configuration drift
- **Designed and deployed** comprehensive monitoring and observability platform using Prometheus, Grafana, Zabbix and CloudWatch, implementing SLO-based alerting that reduced Mean Time to Detection (MTTD) by **40%** and Mean Time to Resolution (MTTR) to **30 minutes**
- **Optimized AWS infrastructure costs** by **15%** through right-sizing EC2 instances, implementing auto-scaling policies, and scheduling non-production resource shutdowns, maintaining **2% budget variance** with **\$200K+ monthly cloud spend**
- **Automated security and compliance:** Achieved **100% security patch compliance**, implemented monthly vulnerability scanning, enforced least-privilege IAM policies, and executed seamless migration from Amazon Linux 2 to Amazon Linux 2023 with **zero critical downtime**
- **Led team development:** Mentored **4 junior DevOps engineers**, conducted **3 internal technical training sessions**, authored **9 Standard Operating Procedures (SOPs)**, and drove innovation initiatives including Agentic and Generative AI, MCP, RAG integration and Terraform module standardization

DevOps Engineer

Tecogis, Mumbai, India

October 2021 - March 2024

- **Engineered cloud-native solutions** on AWS, Azure, and Kubernetes (EKS/AKS); built scalable Jenkins CI/CD pipelines with automated testing, code quality gates, and deployment strategies, reducing release cycles by **40%** and eliminating manual deployment errors
- **Containerized applications**: Dockerized **50+ microservices** and orchestrated via Kubernetes, implementing auto-scaling, resource quotas, and network policies to enable zero-downtime rollouts and consistent environments across Development, Staging, and Production
- **Implemented enterprise monitoring and security**: Deployed ELK stack for centralized logging and Prometheus/Grafana for metrics; enforced security best practices including IAM role-based access, VPC isolation, and regular vulnerability scanning, reducing attack surface by **60%**
- **Drove cloud cost optimization**: Right-sized **100+ EC2 instances**, implemented spot instance strategies and auto-scaling policies, reducing monthly AWS spend by **20%** while maintaining application performance and availability
- **Provisioned and managed AWS infrastructure** using CloudFormation and manual processes; built and maintained EC2 instances, Auto Scaling Groups, Elastic Load Balancers (ELB/ALB), and supporting infrastructure that scaled from **1,000 to 50,000 daily users**
- **Architected secure network infrastructure**: Designed VPCs with custom subnets, route tables, NAT gateways, and VPN connections, creating isolated network environments that enhanced data privacy and ensured compliance in multi-tenant deployments

DevOps Intern

Nitor Infotech, Mumbai, India

December 2020 - September 2021

- **Developed CI/CD pipelines** using Jenkins and Docker, implementing automated build, test, and deployment workflows that accelerated deployment cycles by **30%** and improved deployment reliability
- **Created monitoring solutions** for **10+ microservices** using Grafana and Prometheus, establishing alerting rules and dashboards that supported **99.9% test environment uptime**
- **Assisted in AWS resource provisioning** for EC2, S3, and EKS; automated backup and recovery processes using AWS Backup and custom scripts, improving Recovery Point Objective (RPO) from **24 hours to 4 hours** and Recovery Time Objective (RTO) from **12 hours to 2 hours**

CERTIFICATIONS

AWS Certified Solutions Architect - Associate | Amazon Web Services | 2026

AWS Certified Cloud Practitioner | Amazon Web Services | 2023

Fortinet Network Security Expert (NSE) 1 & 2 | Fortinet | 2020

Diploma in Software Programming | MSME, Government of India

Institute For Design of Electrical Measuring Instruments (IDEMI), Mumbai | 2017

EDUCATION

Master of Business Administration - Information Technology (MBA-IT)

D. Y. Patil University (DPU) | 2025

Bachelor of Engineering - Computer Engineering

University of Mumbai | 2020

Diploma in Computer Engineering

Shivaji University | 2017

ADDITIONAL INFORMATION

Languages: English , Hindi , Marathi

Availability: Immediate Joiner / Serving Notice Period

Work Model: Open to Hybrid / Remote / On-site opportunities

Willing to Relocate: Yes
